

POLICE COURT SQUABBLE CLEAR AS MUD

CRABBE OPINION IS WORDY BUT FAILS TO SOLVE CONTROVERSY

Says Mayor Would Not Help—Officials Still In Quandary

Opinion of Attorney General C. C. Crabbe Thursday that no judicial authority whatsoever can be exercised by the Police Judge appointed for the City of Xenia, since there being no legal Judge, there can be no vacancy in the office coming under the provisions of Section 4569, Ohio General Code, was given City Solicitor J. A. Finney, who sought the former's advice in solving the local Municipal Court tangle. The opinion applies in both state and ordinance cases, according to a letter received from Crabbe by Solicitor Finney.

The solicitor had written indirectly to Attorney General Crabbe through the Bureau of Inspection and Supervision of Public Offices at Columbus, Ohio, in his opinion on the constitutionality of three possible outlets to the situation pending the possible establishment by the legislature of a Police Court in 1926.

Information was asked on the following questions: first, in view of a certain court decision, may the appointed Judge of Xenia continue to hear and decide cases for the violation of city ordinances; second, assuming that the answer to the first question was negative, may the City Commission, or a member of the commission appoint an acting judge under the authority of the General Code, third, in view of a certain court decision that magistrates must be elected, could a member of the commission hear and determine cases of violations or ordinances or statutes or both.

Solicitor Finney withheld comment on the opinion Thursday, but it is believed that Attorney General Crabbe was somewhat vague in his reply and failed to cover each question thoroughly.

The syllabus of the opinion states that the office of the Police Judge is an elective office and no power to create such office or provide for the appointment of a judge therefore can be exercised by any city in Ohio, being contrary to the provisions of the constitution of the state.

In rendering his opinion, Attorney General Crabbe cites the case of the State of Ohio, ex rel F. E. Cherrington, as prosecuting Attorney of Gallia County, against John G. Hutsinpillar, decided by the Supreme Court, April 28, 1925, which brought city officials face to face with the fact that the same situation existed in Xenia.

The above case, according to Attorney General Crabbe, was squarely on the question of the right of a municipality to create a judicial position for Gallipolis, O., a charter city like Xenia, which provided for the appointment of a municipal judge by its commission in the same manner as the charter of Xenia provides for a Police Judge.

Two constructions of the constitution, opposite in provisions, were the subject of controversy in the supreme court in rendering its opinion in the Gallipolis case, upon which members failed to agree.

Section 1, Article 4, provides that the judicial power of the state is contained in such courts as the court of appeals, courts of common pleas, courts of probate and such other courts inferior in power that may be established by law.

In direct controversy, is section 3, Article 18, which provides that the authority to exercise all powers of local self government is vested in municipalities as well as power to adopt and enforce within their limits local police and other similar regulations that are not contrary to general law.

The court was of the opinion that the former section superceded the latter construction which allows, by implication only, the power to create courts.

Officials still believe that the legal status of the local court has not been determined.

MUST APPROPRIATE \$200,000,000 FOR DRY ENFORCEMENT

Unlikely That More Than \$40,000,000 Will Be Spent However

New York, May 14—If prohibition and liquor smuggling laws are to be enforced to the letter in the United States, the sixty ninth congress must appropriate over \$200,000,000 for the job.

That is one of the concrete conclusions of both official and unofficial observers of the government's gigantic drive to exterminate rum. International News Service learned today.

This year's cost enforcement of prohibition laws, was approximately \$40,000,000 and it is highly unlikely that congress will exceed that figure materially in the next budget, regardless of what experts believe is necessary.

A survey of the rum situation disclosed that to afford air tight protection to the coasts, the government must maintain a fleet of close to 100 seagoing cutters, 200 heavily armed patrol boats and a complement of smaller craft. It would take seven thousand to ten thousand men to man this "navy."

EVIDENCE SOUGHT IN DISCOUNT CASE

Columbus, O., May 14—Threats of evidence for submission to a special Delaware County grand jury which is to probe operations of the Cleveland Discount Company are to be sought today by Attorney General Crabbe at Zanesville.

The inquiry was ordered late yesterday by Governor Donahey. The grand jury is expected to be convened Monday. The investigation Crabbe said, is merely an outgrowth of the original probe of the finance company's affairs in Cuyahoga County which resulted in indictment of Josiah Kirby, president, who was subsequently acquitted by a jury of a charge of making false reports.

ABBIE ROCKEFELLER AND YOUNG ATTORNEY HAVE QUIET WEDDING

Heiress Receives Necklace Of Pearls From "John D."—Will Go To Europe

New York, May 14—Miss Abbie Rockefeller, daughter of John D. The bride and groom will sail on Saturday for a four months honeymoon in Europe.

No servants or maids will accompany them. They will take a new roadster of battleship gray. Among the collection of more than a thousand wedding gifts laid out in the Rockefeller home today was a necklace of pearls, the gift of John D. Rockefeller to his granddaughter.

John D. Rockefeller, direct and collateral members of the family which he is the head, and some forty relatives and members of the Milton family, will witness the bridal ceremony.

The Rev. Cornelius Woelfkin, retiring pastor of the Park Avenue Baptist church, will officiate. Ellen Milton and Albert Fink Milton, sister and brother of the groom, will act as bridesmaid and best man.

After the wedding the great Rockefeller home will be thrown open to a thousand guests invited for the wedding reception.

PRESBYTERIANS TO MEET IN COLUMBUS

Columbus, O., May 14—Advance guard of the delegates to the Presbyterian general assembly were preparing today for the sessions which will open here May 21 to continue until May 28. They included Dr. Scott W. Smith Chicago, assistant to Dr. Lewis S. Mudge, stated clerk.

Early delegates were discussing the possibility of the candidacy of Dr. W. O. Thompson, president of Ohio State University here, for moderator in the event that the contest between Dr. Charles R. Erdman, of Princeton, supposed candidate of the modernists and Dr. W. L. McEwan, Pittsburgh, supposed candidate of the fundamentalist faction, reaches a dead-lock.

Election will take place May 21. Pre-assembly activities will begin next Tuesday with evangelistic meetings.

CHILD MUST BE QUICK OR DEAD SAYS CHICAGO CORONER

Is your child quick—or dead?

One or the other he must be, according to Coroner Oscar Wolff of Cook County, Illinois, where reckless autoists take the largest toll of child life, in the United States.

And, fathers and mothers, the responsibility rests with you, as well as with the automobile drivers, the coroner says in a warning issued in connection with National Safety Week.

MAGNATE CONSIDERS BUYING OF VESSELS OF SHIPPING BOARD

Four Hundred Steel Ships Involved—Many Are Too Small

Detroit, May 14.—Operation of a merchant fleet under direction of Henry Ford, was in prospect today with the announcement that the automobile manufacturer was considering the purchase of four hundred steel vessels from the United States shipping board.

First inkling of the manufacturer's plan came when T. V. O'Connor of Buffalo, chairman of the shipping board, announced after a two day conference with Ford that Ford might make such a buy.

The ships are dead loss where they lie at anchor now, requiring a huge annual outlay to prevent deterioration.

"Most of the shipping board vessels are pretty small for our purposes," said Ford, in discussing the report. "We might buy them if the price is right, but it is only those of around 12,000 tons that would be suitable for our use. The others would have to be scrapped."

"What we need is ships about the tonnage of the East Indian, which we bought from the shipping board to be reconditioned for export trade to Denmark. The East Indian runs around 12,000 tons."

Ford said that he would be careful to see that any boats he bought were built right.

"We know the Onondaga and the Oneida, in the South American trade, were all right for they were built near home," he said, "but a lot of the shipping board's vessels were thrown together, at a time when everyone was crazy. Some are not strong, and others have engines that are really pretty bad. They were built to meet an emergency need, and of course ours is not an emergency need."

The Onondaga and Oneida, were said to be too small for use by the Ford Company.

The purchase would take about one third the vessels remaining in the shipping board fleet. The wood bottoms are already disposed of, O'Connor said.

WHO WINS POLICE COURT BATTLE?

President Of Xenia City Commission Wants To Know.

(While the controversy over the Police Judge question raged over the best dining tables in the city, it remained for Judge H. L. Smith, president of the city commission, to offer an entirely new angle on the situation. His letter below may or may not be a bombshell thrown into the police court situation.)

The trial now going on in this paper, to determine whether E. D. Smith was or was not Police Judge de facto, and if his official acts can be questioned or ignored is amusing.

These questions will have to be settled by the Courts. In the meantime, dust is being thrown in the eyes of some people. Let us suppose that the Courts find that the money paid can be recovered back from the City of Xenia. Still, Sister Leach and her companions will find that they have "spilled the beans," for themselves. If the trial before the Police Judge did not bind them, it did not bind the State. The State will simply start proceedings before a Justice of the Peace or the Probate Judge, and my guess is the fine will not be any less than before. In the end, the lawyer who made the recovery will be the only winner, for the money recovered back, and possibly more, will be needed for the new fines and costs.

JURY DISAGREES IN JONES CASE; TRIAL MAY BE HELD AGAIN

Men Vote For Acquittal Of "Procurees"—Women Wanted Conviction

Elyria, O., May 14—Prosecutor D. A. Baird will probably decide today whether or not he will again bring before a jury for trial Miss Lucille Jones, 20, daughter of Rev. T. Howard Jones, Lorain clergyman.

The jury, deliberating upon the evidence introduced in an indictment charging her with having procured Ethel Kun, 15 year old girl, for William Monschein, reported late last night, they were hopelessly divided and were discharged by Judge A. R. Webber.

Miss Jones either may be brought to trial again on this indictment or upon another charging her with soliciting or attempting to solicit.

The jury, it was reported, stood seven for acquittal and five for conviction. The men, of whom there were nine on the jury, were said to have furnished the "not guilty" ballots and the three women and two men were reported to have voted "guilty."

Lorain, O., May 14.—Ethel Kun, just 15 years old, but with experiences that usually come in maturer years, doesn't want to return to her studies in the eighth grade now that the trial of Lucille Jones, charged as a "procuree" has ended tentatively at least.

The young girl who blasted her own reputation when she took the witness stand to accuse the Lorain minister's daughter of responsibility for her own indiscretions with men, declares that she cannot go back to school because "my teachers and the girls think I'm bad."

The hastens to add:

"The boys treat me all right, though."

Lucille Jones, who now faces the prospect of a new trial as a result of discharging the jury when it disagreed yesterday, refused to discuss the case today.

Her father, Rev. T. Howard Jones, also refused to talk.

"There is nothing I can say," he said.

PAPAL NUNCIO ACTS AS SPOKESMAN FOR DIPLOMATS PRESENT

New President Thanks Visitors and Promises Effort for Peace

Berlin, May 14.—President Hindenburg today received congratulations of the diplomatic corps.

Warren Delano Robbins, the American charge d'affaires, was seated in the semi-circle with other envoys at the reception at the president's palace when Papal Nuncio Pacelli, in a brief speech, congratulated the new president.

Hindenburg thanked the diplomatic corps and expressed the hope that Germany, "with God's help would get back on her feet."

Then the old soldier shook hands with each of the envoys.

Pacelli voiced the greetings of the diplomatic corps to the new executive.

"We are glad to extend to your excellency, our congratulations," he said. "We are animated by the wish that under your wise leadership the German nation will bring to flourish not only its material welfare but also treasures of a higher order which are the surest guarantee of civilization and the progress of human society."

"We hope under your guidance the German state will consolidate its relations with other nations for the triumph of the great cause of world peace."

"I ask Heavenly blessings on your German nation."

Replying to Pacelli, the president said:

"It is a particular pleasure to receive congratulations from your eloquent lips. Please be assured I fully appreciate your thoughts for development of all factors. Whoever stands at the head of a great nation should wish to see his people co-operate in peace and equality for the solution of world problems. I do not mistake the difficulties in my way but they are not insurmountable."

"What I can do shall be done with earnest, conscientious and full devotion."

M'CLELLAN FORMING NEW VISITING STAFF FOR STATE HOSPITAL

Describes Resignation As Tempest In Teapot—Many Recant

Dayton, O., May 14—Dr. H. H. McClellan, superintendent of the Dayton State Hospital characterizes the wholesale resignation of members of the visiting medical staff and hints that "serious charges" would be preferred against him, as a tempest in a teapot.

That a number of the physicians who tendered their resignations to Director of Public Welfare Harper at Columbus declaring hospital conditions were "intolerable" had thought better of their action and would serve on a new visiting staff became apparent yesterday.

Dr. McClellan announced that the new hospital visiting staff is in the process of formation and soon will be functioning smoothly.

"On the new staff will be a number of physicians who are alleged to have signed the 'round robin' to Director Harper," declared Dr. McClellan. "These gentlemen have been honest and sincere enough to say that they are sorry they were misled into signing the letter of protest in the terms in which it was couched."

"There will be enough new men to make up for any loss through the resignation. The complete staff will be announced as quickly as it is definitely formed."

"In so far as I am personally concerned I have nothing to say against any of the physicians who resigned. All are perfect gentlemen as far as I know."

"This closes the incident."

An alleged confession was introduced in evidence in which Liska was reported to have admitted the crime, but said that he did it at his wife's request.

RULING OF CRABBE OF NO EFFECT HERE

The Greene County Auditor's office is not affected by a recent ruling of Attorney General C. C. Crabbe that county auditors may not remit liquor law fines and discharge persons convicted for state law violations and jailed for non-payment of fines, since the local office has always held this opinion, declared County Auditor R. O. Wead, Thursday.

Attorney General Crabbe had declared that this practice could not go on as one-half of the fine belongs to the state and therefore could not be remitted.

"The ruling refers to what is known as 'paupers,' declared Auditor Wead, "and I have always made a practice of refusing applications to release prisoners in the past."

NOW DOES ALL HER WORK

Has No Backache, No Bad Feelings Because Lydia E. Pinkham's Vegetable Compound Drove Her Illness Away

Milwaukee, Wisconsin.—"I was in a badly run-down condition and I would get weak spells and terrible headaches. I felt so badly last year that I could not do any housecleaning. The minute I would lift or stoop it seemed as if I was going to fall to pieces. I told a neighbor how I felt and she said that Lydia E. Pinkham's Vegetable Compound was surely the right thing for me. I took four bottles then and in the fall of the year I took three. I had been treated by a doctor but he gave me an iron tonic and that did not help me. It seemed that the tonic did not have in it what the Vegetable Compound did. That gave me the strength and ambition I needed and I have gained in weight. This year before I started to clean house I got four bottles of the Vegetable Compound and am taking it right along. I tell all my friends about it and how much good it does me. They can notice it because I have gained in weight. I weigh 118 now and do all my work myself again."—Mrs. EMIL O. BRANDENBURG, 651 37th Street, Milwaukee, Wisconsin.

Stomach Distress?

"I have never taken a medicine that I can so highly recommend for indigestion and stomach trouble as Dr. Pierce's Golden Medical Discovery. I was all run-down in health, my food just would not digest, gas would form, and it would feel as if I had a hard lump in my stomach. I suffered great distress and got so weak and run-down that I could scarcely drag myself around. I was advised to take the 'Golden Medical Discovery,' which I did, and it relieved me of all stomach trouble. I could eat anything I wished without distress. The 'Discovery' built me up in health all over. Aside from being good for the stomach, it is a wonderful building tonic and blood medicine."—Mrs. Catherine Snyder, 3232 N. Erie St., Toledo.

GREENE COUNTY JAIL WILL HOUSE FEDERAL PRISONERS, IS SAID

U. S. Marshal Stanley Borthwick has announced that federal prisoners will be confined in the Greene County Jail here in the future.

This will be the first time that the federal department has used the jail here to house prisoners and is occasioned by the fact that most jails used for federal prisoners are overcrowded. The Hamilton jail now contains 500 prisoners and the Darke County jail, which has been used for federal prisoners, is full. Borthwick announced at Cincinnati that the government has prisoners in a number of jails but has been forced to make changes frequently because these jails are now filled.

Sheriff Morris Sharp was out of town Thursday and could not be reached about the statement given out by Borthwick.

And why should any man or woman suffer another hour with chronic indigestion or any stomach misery when this grand elixir that acts almost instantly can be easily procured?

AUTOIST REPORTS MACHINE STONED

Howard Fox, Trumbull Street, lodged a complaint with police Thursday that his automobile was stoned Wednesday evening while driving on the Fairground Road with a woman companion. Neither of the occupants was struck by the missiles though one smashed through the rear window and another passed through the side window glass.

Two men in another car passed him and threw the rocks, said Fox, who gave police the number of the other machine. Elwood Strayer, this city, arrested later as the owner of the car, denied knowledge of the stoning and released.

Fox told police that two men in a machine drove by his car, stopped and when Fox passed them, began a stone attack. Fox could not explain the cause of the attack.

But there is more to say about this remarkable remedy—something that will interest thousands of despondent people.

Dare's Mentha Pepsin not only quickly relieves stomach distress, but it also conquers stubborn indigestion, dyspepsia and gastritis, the kind that bothers all day and robs you of needed sleep at night.

Furthermore it puts an end to dizziness, nervousness, headache, sleeplessness and despondency which distressing troubles are nearly always caused by chronic stomach disturbance.

Dare's Mentha Pepsin is pleasant to take, has a delightful refreshing taste and after it has put your stomach in a clean and healthy condition, just notice how much better you look and feel, for besides correcting stomach disorders this supremely good remedy that Sohn's Drug Store and druggists everywhere are glad to guarantee, is a fine tonic that builds you up and makes you work with vim, eat with relish and sleep soundly.

BEATING THE TRAIN

"TWO dead, two injured," is the glaring streamer heading across the top of some newspaper somewhere almost every day; or something similar. And then the story goes on to relate the horrible details of the accident in which a fast-flying train crashed into a speeding motorcar and of how one of the injured members of the party said afterwards:—"I begged him to stop—I shouted in his ear—but he said he could beat the train."

He lost, and with his own death was recorded the snuffing out of the life of the young woman who rode by his side and the injury of his other two companions. Two dead and two injured. And all because of a foolish whim—nothing higher—to beat a train over the crossing. The story oftentimes goes on to relate that as the speeding automobile approached the crossing there was another car there whose driver showed the right way. The driver of the latter car had stopped to look and listen before starting across and had heard the whistle of the locomotive. As the other car approached he had held out his hand and, as that was ignored, yelled to the driver to stop. One of the occupants of the back seat in the speeding car had even given warning. The driver knew just what he was doing—trying to beat the train. He couldn't wait.

But let the driver of the locomotive tell the rest of the story. "There was no chance for the train to stop or slow down. I saw an automobile waiting at the crossing for the train to pass. The whistle was blowing and I heard the crossing bell. Suddenly an auto shot out from the right side of the other car. I put on the emergency brakes but the engine hit the car squarely. As soon as the train stopped I got out and ran back. The baggageman reached the scene ahead of me. The car was a wreck and on fire. We got the occupants out as quickly as we could but a girl and a young man were dead. The others seemed to be alive and we rushed them to a hospital in the automobile that had stopped for the train. They were badly burned and injured, the young man with both legs broken."

The thoughtless will, of course, ignore this warning as the many others that have gone before, but it will stir the minds of others and we hope will save lives. The driver who waited at the crossing, who did not attempt to race the train across the danger point, is the example of the man who "Lost a minute and saved a life"—his own. The other is the example of the man who disregarded the slogan which has been used throughout the nation—"Wait—you may lose"—and he is dead.

OTHER PEOPLE'S TROUBLES

Seems like she's never had a day Which she could give to rest and play.

In all the years we've shared this life

And plodded on as man and wife I've never known the day to be

When she was wholly worry-free.

We've had our share of hurt and woe Which every married pair must know.

And that we've borne as best we could

Believing all God sends is good. But when our patch of sky is fair I've said a glad farewell to care.

Not so with Nell. Her heart's so large That every living soul's her charge.

And other people's troubles make A burden which she cannot shake;

Day after day she hears them call And does the worrying for them all.

I've scolded, just for this reply: "We are so happy, you and I."

That we should be ashamed to live And never help or never give;

I couldn't sleep at night and know I had been called and didn't go."

And so I smile, for I have learned From her that laughter must be earned.

That other people's troubles call For help and pity from us all.

That none who truly loves can be At peace with self and worry free.

To crochet a saque, with cap to match, for cool summer days for the little girl, aged from two to three years, buy seven balls of three-fold white Saxony wool and two balls of two-fold pink or blue Saxony. Use a number three bone or celluloid crochet hook.

Begin by chaining 71 with the white Saxony. Work 70 S. C. on the chain. Work seven inches of S. C., always taking up both loops of previous row. Chain one and turn at end of each row. Now increase one stitch at each end every row three times, then add a chain of 36 stitches at each end for sleeves, work 35 S. C. on each chain, work three and one-half inches, and on the next row work 67 S. C.; work three rows on these 67 stitches, then increase one stitch toward the front every row 12 times. When sleeve measures seven inches leave the 36 stitches at the end for sleeve, then decrease one stitch every

row toward the underarm three times; work two inches on this length till front is as long as back. Make other front to correspond. Sew up underarm and sleeves, work one inch of S. C. down each front and around the bottom, increasing at corners, work one double crochet in every other stitch with one chain between each D. C. around neck and fronts (for beading) then join color and work three treble crochet in first-st. * two T. C. in next st., three T. C. in next stitch, repeat from * all around, working a picot every third stitch.

Cuff: With white, work one row of D. C. one inch of S. C., one row of D. C. and then join color and finish same as front of saque. Draw ribbon through all beading.

Cap: With white chain 31, work 30 S. C. on chain, work four inches of S. C., then work one S. C. in each

row on side of piece just made. Next, work across the 30 at the top and work one S. C. in each row on other side. Work back and forth for seven inches. Join color and work a frill across the front same as on saque, make a row of beading and finish with a frill. Turn cap edge back two inches and trim with ribbon.

Today's Talks

BEAUTY

I never tire of talking beauty with anyone—any phase of it.

One reason why I so much love the writings of Lafcadio Hearn and W. H. Hudson is that they both strove for the expression of beauty. Neither man cared for money or fame. Both, however, sought for recognition, and both died just as it began to come their way.

A home cannot be made too beautiful. Neither can an office. Neither can a city—nor anything. I do not consider it a vain thing for women to dress beautifully. The more beauty there is in this world, the more happiness there will be.

Beauty always gives forth charm.

How true this is of nature. What gorgeous colorings to the coats of the birds and the blossoms of the flowers. Every day when I leave my office for luncheon I pass a florist's shop, and I am attracted to its windows as to a magnet because of its wondrous beauty. I used to think it wasteful to spend several dollars for an orchid. I do not think so now—if you have the several dollars that you can afford to spend that way.

Nothing is wasted that sweeps the heart clean with beauty.

I have a friend who once told me that his religion was the religion of beauty. I told him promptly that his religion was mine.

We think about the things we love. And if we love beauty in all its forms and manifestations, we are bound to think beautiful thoughts and live beautiful lives, no matter how much we have to contend with.

And there is beauty enough for all! Everywhere.

RE-APPRAISAL OF PROPERTY STARTS NOW IN FAIRFIELD

Re-appraisal of property in Fairfield Village was begun Wednesday following a conference with members of the village Council by County Auditor R. O. Wead Tuesday night.

R. O. Routzong, Fairfield, land owner and real estate man has been appointed by Auditor Wead as head appraiser and deputy under the auditor.

There are 402 tracts of land in Fairfield to be appraised and it is estimated by Auditor Wead that forty days will be consumed in the work. An appropriation of \$900 to cover re-appraisal expenses was recently authorized by the County Commissioners.

Auditor Wead also announced the appointment of an advisory board consisting of five residents of Fairfield, all experienced real estate men, which will confer with Mr. Routzong after the appraisal has been made on various incongruities in proportions and values placed on property.

The advisory board includes R. C. Rockfield, J. W. Smith, L. H. Douglas, S. H. Nelson and Charles Mays. It is estimated that it will take three or four days for members of the board to go over values.

The various values will then be given to the county board of revision which consists of Herman Heavly president of the board of county commissioners, F. A. Jackson, county treasurer and Auditor Wead which will make a final survey of the values; hear any complaints on the appraisal and act on them.

RED CROSS CHAPTER NAMES COMMITTEE ON PREPAREDNESS

A Disaster Preparedness Committee which will be ready to function in the case of any unforeseen disaster in this vicinity, is being organized by the Greene County Chapter of the American Red Cross, according to Mrs. Sarah H. Roberson, executive secretary.

The committee will enable the Red Cross to take care of sufferers, in the case a tornado, flood, fire or any similar disaster swept the city or any like situation that might arise. Merchants will be placed on the committee, with their consent to furnish material to the Red Cross for sufferers in case the situation might occur. Individuals from over the entire county will be made members of the committee each person to fill some need of the Red Cross for such a purpose.

The committee will be inactive in connection with Red Cross work except in the case of a disaster. "It is important that we be prepared for disaster for we cannot tell when a terrible situation might come up," said Mrs. Roberson.

The suggestion that a Disaster Preparedness Committee be appointed, made at the last meeting of the executive board of the Greene County Red Cross, met with the approval of the board members and work was begun immediately on its formation.

SAMUEL DODDS IS CALLED BY DEATH

Va., convicted of charges of forgery and grand larceny, Herschel White and Forest Sibole, both of Springfield, convicted on four counts of burglary and larceny, were taken to the Ohio State Reformatory at Mansfield, O., Thursday morning by Sheriff Morris Sharp where they will begin serving sentences.

ATTORNEY MOVES TO QUASH INDICTMENT

Motion to quash the indictment by the Grand Jury against Lewis Swan, this city, charged with unlawful possession of narcotics, was filed in Common Pleas Court Wednesday.

It is charged in the motion that the state failed to show in what way Swan was not permitted to have a small quantity of morphine alleged to have been found on him several weeks ago and not setting forth for what purpose he used it.

Swan pleaded not guilty to the charge at his arraignment and was indicted by the Grand Jury for the May term. He has not yet been ar-

raigned on the indictment in Common Pleas Court. The motion was filed by his attorney, H. C. Armstrong.

RESERVES TO PLAY LAUBER CLOTHES OF DAYTON ON SUNDAY

The Xenia Reserves will play last Sunday's postponed game with the Lauber Clothes baseball team of Dayton, Sunday afternoon at the Washington Park diamond.

Manager Chambliss is planning his hopes in the Sunday game on his star twirler, Cyphers, who has won two games and dropped one to date this season.

The Reserves and Dayton Laubers are old rivals at the diamond pastime and because of the intense rivalry existing, a good brand of ball should be developed by both teams.

The Reserves have dropped but one contest this season to the Dayton Shroyer's Cubs while winning other games by shut out scores and will make an effort Sunday to extend their winning streak to three games Sunday.

KNUTE ROCKNE WILL HELP DEDICATE NEW STADIUM AT DAYTON

The Rt. Rev. Msgr. Louis J. Nau, Administrator of the Archdiocese of Cincinnati will lay the corner stone of the new University of Dayton stadium and Mr. Knute K. Rockne, athletic director of Notre Dame University will deliver the address of the day Sunday June 7 in connection with the commencement exercises and the celebration of the "Diamond Jubilee" of the University of Dayton.

The new stadium, the initial part of which will be completed for the first football game of the coming season is to be one of the finest structures of its kind in the middle west. Twelve thousand will find accommodation at the games this fall and as the attendance increases larger portions, including an upper deck, will be added until the final capacity of forty thousand is reached.

PITTSBURGH FANS SOUR ON PIRATES OVER WINTER DEAL THAT PANNED OUT WRONG

BY DAVIS J. WALSH
Pittsburgh, May 14—Pittsburgh fans, ever a mercurial lot, have turned their backs on the Pirates because of the club's inept performance and today are calling loudly for somebody's head, preferably that of Barney Dreyfus. That worthy rather than Bill McKechnie, has been blamed for the mid-winter deal, whereby the Pirates gave up 50 per cent of an all-star infield and received in return one hundred per cent of jolly old Barnum.

The transaction took away "Rabbit" Maraville, the best second baseman in the league, last year; Charley Grimm, a gifted first baseman and Wilbur Cooper, until recently one of baseball's leading left handers. It brought here Al Niehaus, a minor leaguer, who apparently can neither hit nor field; Grantham, another infielder, who got away to a standing start and Aldridge, a right hand pitcher who held out so long that he has been of no use to the club to date.

The thing has begun to look as sour as last week's milk and before the team ventured into the east, local fans were staying away from Forbes field in droves. The writer took the trouble to inquire into the local situation today and found apathy rampant, a ten dollar word meaning without restraint.

The populace, it seems, does not mean to rise to another Pirate failure. It saw the Pirates of 1921, all of seven and one half games in the lead in September, yet fail to win the pennant. It saw the 1922, 1923 and 1924 clubs apparently headed for the flag, only to bog down at the critical moment.

Now it finds itself in the position of the man who investigated the cigar clipper with the tip of an inquisitive finger. It is beginning to lose confidence in the situation.

Instead of being a contender from the drop of the derby, as indicated by advance calculations, the Pirates first were knocked off by everybody in the west and then went east to Philadelphia where they fared none too well, if at all.

This record has been taken locally as sufficient proof that the club has lost its collective shirt in the much-discussed club deal. In fact, the only man who seems to think otherwise is Barney Dreyfus. He stoutly maintains that time will justify all and, meantime, the club has gone into reverse with great alacrity.

Grantham came here with a reputation of being an indifferent fielder but a good hitter and base runner. In the last named department he has been a disappointment because no one has yet invented a system of successful base running in the dugout. Grantham hasn't hit the size of his

neckband and has been out of the lineup for the most part. But with Niehaus going so poorly, something has to be done; so the chances are good that Grantham will be in there from day to day, regardless of his light hitting.

Meanwhile Pittsburgh fans are thinking very rugged thoughts about Maraville and Grimes.

COURTESY HELPS ADS PAY DIVIDENDS

The flavor of courtesy in an advertisement has the pulling power of a strong magnet.

Most people like to be courteously addressed—even though many of them are not particularly courteous themselves. It is simply human nature to respond to kindly treatment favorably. Advertisers who keep this in mind and write courtesy and kindness into their ads find prospects readier to read the printed message which is courteous than one which is impersonal—or even brusque.

The flavor of courtesy is particularly valuable in food, clothing or bank advertising. One chain of cafeterias in a large mid-western city has profited hugely by using the simple phrase, "Miss Blank invites you," in tempting people into that particular chain of cafeterias.

GETTING UP NIGHTS

Tells you there is danger ahead. A healthy bladder does not act at night. J. M. Dorton, W. Graham, Va., says "I had to get up seven or eight times at night for forty years. I thought it was my age. After taking Lithiated Buchu a short time, I am alright." Lithiated Buchu cleanses the bladder as Epsom Salts do the bowels thereby relieving irritation driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost 2 cents each. Sold at all leading drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at Sayre and Hemphill. Adv.

FOR STIFF JOINTS

Pharmacists say that when all other so-called remedies fail Joint-Ease will succeed.

Married Woman Eats Only Bread and Milk

"I could eat only bread and milk, everything else soured and formed gas. Since taking Adlerika I can eat anything without causing gas," (signed) Mrs. J. B. Manning. AUTO RUNS 57 MILES ON GAL. OF "GAS"

A new automatic and self-regulating device has been invented by John A. Stransky, 162 Fourth St., Pukwana, South Dakota, with which automobiles have made from 35 to 57 miles on a gallon of gasoline. It removes carbon and reduces spark plug trouble and overheating. It can be installed by any one in five minutes. Mr. Stransky wants distributors and is willing to send a sample at his own risk. Write him today.

The District Council will meet at 1 o'clock, to discuss and decide the appointments for World Service for next year. All pastors and lay members of the council are urged to attend this meeting.

The Ministers' Wives Association will meet at 1:30 o'clock, the program and place of meeting to be announced at the close of the morning session.

The standing committees of the district are: license to preach, H. J. Jewett, J. P. Simmonds, J. W. Patton, E. Busler, G. A. Whitlock; course of renewal of license, J. H. Denney, V. study, R. B. E. O. Crist is district superintendent; R. B. Foster, secretary-treasurer and V. F. Brown, entertaining pastor.

Kidney Sufferers

Physicians have long known a remarkably effective remedy for weak bladder and overworked kidney—a wonderful oil imported from Holland which heals and tones up the irritated organs and banishes frequent calls, tired feeling, backaches, rheumatic pains, etc., often within 24 hours. This remarkable oil has at last been put up in easy-to-take tablets, capsules, under the name of Red Mill Haxium Oil. It costs only 50c, and relief is guaranteed or money back. Ask these druggists:

Finer Results, Easier Riding, Greater Strength, Lower Costs

One of the first considerations of the designers and builders of the new good Maxwell was to make sure of ample strength.

Transmission and rear axle are strong enough for the most powerful lugging through deep sand and mud. In every particular the car is built to do the job—whatever the job may be—and do it unfalteringly.

The new good Maxwell is in truth a car of exceptional quality. The motor is designed not only to deliver 58 miles an hour and accelerate from 5 to 25 in 8 seconds. It also combines such structural features as force feed lubrication to main bearings.

Facts like these account for the car's dependable service and low maintenance costs. We would like an opportunity to tell you the complete Maxwell story. But most of all we are eager to demonstrate the car's finer results and riding qualities.

GAS BUGGIES—The Most Uncomfortable Feeling In The World

WHY CAN'T YOU BE SENSIBLE ABOUT PAINTING THE CAR--NOBODY BUT A FIREMAN PAINTS A CAR RED THESE DAYS--ALL THE CARS THIS YEAR ARE GREY.

I DON'T CARE--IT'S GOING TO BE RED--I'VE ALWAYS WANTED A RED CAR.

HLO, MAC--I'M TRYING TO GET THE CAR CLEAN ENOUGH TO GIVE IT A NEW COAT OF PAINT.

WHAT-IF YOU'RE GOING TO PAINT THE OLD BOY--WELL--I HOPE IT ISN'T GOING TO BE RED.

NEARLY EVERYBODY WHO REPAIRS THEIR CAR PICKS OUT SOME CHEAP GAUDY COLOR--THEY'RE REGULAR EYESORES.

YEH--THAT'S RIGHT--HEN--

WHY THESE HALF-WITS PICK OUT RED WHEN YOU CAN GET SUCH PRETTY GREYS AND TANS IS BEYOND ME.

YEH--THAT'S WHAT I SAY--I'D BEEN THINKING OF PAINTING OURS SOME SORT OF GREY.

SAY--WHAT DO YOU THINK OF HEM--HE WANTS TO PAINT OUR CAR RED--!!

NOT POSSIBLE TO CLASSIFY

BY MACK SAUER

HIS UNION QUEEN

Longfellow Smallpox was a paper collar shined to its most exuberant state of brilliancy and was most lovely in blue denim overalls. His tie was of intricate design, being fastened to the collar button with a clever wire-arrangement.

But you should have seen the room. How lovely it was! A flickering coal oil lamp sputtered in profuse splendor and cast a mellow refulgence upon the homely faces of those present. The lamp stood in the center of a card table heaped with rag wads and morning glories, interspersed with large vases filled with oyster soup and gasoline. The alarm clock was buried in a rich, deep brown dust and ticked away the swiftly passing moments of the night.

Music was provided by Matt Kump and his Hammer Club orchestra, all selections being colorful, the tints of the players' cheeks ranging from a pale grey to a bloody red and changing in size from like a flat piece of rubber to like a 30x3 inner tube blown to its most astounding capacity with free air.

One does not attain such a prolific attainment in a day. In fact, the distinguished Mr. Kump acquired the first rudiments of trombone manipulation while blowing rubber balloons full of air at county fairs. The graceful, sliding movements of his arm were developed to a high crest of efficiency even before he took up the pathetic trombone.

At a late hour refreshments of mush and milk were served, the milk being that of a bewitching little Jersey cow that has been quartered on the verdant hills of Jamestown during the splendid spring months.

Many useful gifts were received, including a bar of soap.

GOING UP

Blessings on thee, Little Ann,
Go barefoot while you can;
Big girls know no joys like these,
They can only show their knees.

Abigail will sing "His Union Queen" in Xenia one of these days. Turn now to the ads.

FISHING IS FINE

There was a young fellow named Tharp
Whose hook hooked a 20-pound carp;
It pulled like a shoat,
Thorp fell from the boat--
I think he's now playing a harp.

VETERANS WAR WITH CHAMBER OVER SALE

Cleveland, O., May 14—Veterans of Foreign Wars and the Chamber of Commerce were in disagreement today over the action of city council in giving the veterans permission to sell poppies on city streets for a week.

The poppy sale is for the purpose of raising money to finance the veterans activities in behalf of disabled former soldiers.

"This action places a worthy sentiment on the basis of a commercialized tag day," the chamber declared in a bulletin.

In reply E. G. Usher, commander of post 84, declared that the chamber committee had always "been unfriendly to the sale of poppies, despite endorsement by President Coolidge, General Pershing and the legion council."

BRINGING UP FATHER

MICHAEL'S MARRIAGE

By MICHAEL

CHAPTER XLII.

Michael Menlow did not enjoy the engagement dinner. The principal reason was that his dresscoat rubbed a sore spot on his neck, causing him to be continually moving his head in hopes of finding relief. Lilah interpreted it as nervousness. She smiled at him sympathetically and wished that she could pat his cheeks and run her fingers through his hair. Radiant in a gown of bronze satin and tulle of a deeper shade, that gave an air of subdued smartness, she sat looking at him as if she was the only woman who had ever won the heart of a man.

Michael was, for the most part, silent. He was thinking of his mother, of the plans he had once made to go around the world on his own; and though he fought them, he was taken up by thoughts of Elaine Alloway.

At last came the moment when Father Pharley arose nervously, his wine glass shaking a little, and stilled the small-talk. Father Pharley was quite self-conscious; he was not accustomed to speaking to more than two or three persons at a time. He did not look at his daughter, but focused his attention upon Michael.

"I wish you to drink to the happiness of my daughter and Mr. Michael Menlow," he said evenly.

Sixteen pairs of eyes turned sparkling to Lilah and Michael. The girls gave little "ahs," and the men grinned. Lonnie Capper sighed. Lilah blushed. Michael stared at the tablecloth. Father Pharley looked to his wife for approval of his phrasing. He had spent the afternoon memorizing what he was going to say but wasn't sure that he had recited it correctly.

A chattering buzz began as the glasses clinked again upon the table. Everyone was smiling.

There were many expressions such as "Why, Lilah!" from pretty girlish mouths.

When they all arose from the table, Lonnie came around to Michael with a funereal expression and solemnly shook his friend's hand. Michael regarded him questioningly, not knowing whether Lonnie was being prankish.

"I want you to be the best man, of course," he said.

Lonnie looked alarmed. "Gee gosh; I don't want to, but I guess you'll need me. You'll need an old gray head like mine to bear you through your trouble."

Michael smiled, but Lonnie's sad expression did not change.

The tables magically disappeared, and an orchestra took up its place on the balcony.

Michael sought out Lilah.

"I claim the first one by divine right," he smiled.

He did not experience any exultation as he held her in his arms. He felt rather dulled, and would have liked to go home and go to sleep.

Lonnie claimed Lilah after the first dance.

"You don't own her yet," he smiled as she took his arm. Michael frowned. He didn't think the remark was in good taste.

He took Katherine as a partner. There were other girls he would have preferred to dance with, but he felt a hesitancy to ask them—now.

Michael was glad when he was free to go home. Without taking off his hat or topcoat, he slumped down into a chair, and gazed into the smouldering embers of the fireplace.

He was startled when Sally appeared with a tray, bearing a glass of hot milk, and a letter.

He regarded it idly as he sipped the drink. It was from Elaine Alloway.

Firestone

FULL-SIZE GUM-DIPPED
BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer mileage—greater economy—at no extra cost to you!

Enjoy the safety, economy and comfort of Balloon Gum-Dipped Cords this summer. Let us equip your car now at low cost—with liberal allowance for your old tires.

POLICE COURT SQUABBLE CLEAR AS MUD

CRABBE OPINION IS WORDY BUT FAILS TO SOLVE CONTROVERSY

Says Mayor Would Not Help—Officials Still In Quandary

Opinion of Attorney General C. C. Crabbe Thursday that no judicial authority whatsoever can be exercised by the Police Judge appointed for the City of Xenia, since there being no legal Judge, there can be no vacancy in the office coming under the provisions of Section 4569, Ohio General Code, was given City Solicitor J. A. Finney, who sought the former's advice in solving the local Municipal Court tangle. The opinion applies in both state and ordinance cases, according to a letter received from Crabbe by Solicitor Finney.

The solicitor had written indirectly to Attorney General Crabbe through the Bureau of Inspection and Supervision of Public Offices at Columbus, Ohio, in his opinion on the constitutional question of three possible outlets to the situation pending the possible establishment by the legislature of a Police Court in 1926.

Information was asked on the following questions: first, in view of a certain court decision, may the appointed Judge of Xenia continue to hear and decide cases for the violation of city ordinances; second, assuming that the answer to the first question was negative, may the City Commission, or a member of the commission appoint an acting judge under the authority of the General Code; third, in view of a certain court decision that magistrates must be elected, could a member of the commission hear and determine cases of violations or ordinances or statutes or both.

Solicitor Finney withheld comment on the opinion Thursday, but it is believed that Attorney General Crabbe was somewhat vague in his reply and failed to cover each question thoroughly.

The syllabus of the opinion states that the office of the Police Judge is an elective office and no power to create such office or provide for the appointment of a judge therefore can be exercised by any city in Ohio, being contrary to the provisions of the constitution of the state.

In rendering his opinion, Attorney General Crabbe cites the case of the State of Ohio, ex rel F. E. Cherrington, as prosecuting Attorney of Gallia County, against John G. Huttenpillar, decided by the Supreme Court, April 28, 1925, which brought city officials face to face with the fact that the same situation existed in Xenia.

The above case, according to Attorney General Crabbe, was squarely on the question of the right of a municipality to create a judicial position for Gallipolis, O., a charter city like Xenia, which provided for the appointment of a municipal judge by its commission in the same manner as the charter of Xenia provides for a Police Judge.

Two constructions of the constitution, opposite in provisions, were the subject of controversy in the supreme court in rendering its opinion in the Gallipolis case, upon which members failed to agree.

Section 1, Article 4, provides that the judicial power of the state is contained in such courts as the court of appeals, courts of common pleas, courts of probate and such other courts inferior in power that may be established by law.

In direct controversy, is section 3, Article 18, which provides that the authority to exercise all powers of local self government is vested in municipalities as well as power to adopt and enforce within their limits local police and other similar regulations that are not contrary to general law.

The court was of the opinion that the former section superseded the latter construction which allows, by implication only, the power to create courts.

Officials still believe that the legal status of the local court has not been determined.

MUST APPROPRIATE \$200,000,000 FOR DRY ENFORCEMENT

Unlikely That More Than \$40,000,000 Will Be Spent However

New York, May 14—If prohibition and liquor smuggling laws are to be enforced to the letter in the United States, the sixty ninth congress must appropriate over \$200,000,000 for the job.

That is one of the concrete conclusions of both official and unofficial observers of the government's gigantic drive to exterminate rum row. International News Service learned today.

This year's cost enforcement of prohibition laws, was approximately \$40,000,000 and it is highly unlikely that congress will exceed that figure materially in the next budget, regardless of what experts believe is necessary.

A survey of the rum situation disclosed that to afford air tight protection to the coasts, the government must maintain a fleet of close to 100 seagoing cutters, 200 heavily armed patrol boats and a complement of smaller craft. It would take seven thousand to ten thousand men to man this "navy."

EVIDENCE SOUGHT IN DISCOUNT CASE

Columbus, O., May 14—Threads of evidence for submission to a special Delaware County grand jury which is to probe operations of the Cleveland Discount Company are to be sought today by Attorney General Crabbe at Zanesville.

The inquiry was ordered last yesterday by Governor Donahay. The grand jury is expected to be convened Monday. The investigation Crabbe said, is merely an outgrowth of the original probe of the finance company's affairs in Cuyahoga County which resulted in indictment of Josiah Kirby, president, who was subsequently acquitted by a jury of a charge of making false reports.

Early delegates were discussing the possibility of the candidacy of Dr. W. O. Thompson, president of Ohio State University here, for moderator in the event that the contest between Dr. Charles R. Erdman, of Princeton, supposed candidate of the modernists and Dr. W. L. McEwan, Pittsburgh, supposed candidate of the fundamentalist faction, reaches a dead-lock.

Election will take place May 21. Pre-assembly activities will begin next Tuesday with evangelistic meetings.

MAGNATE CONSIDERS BUYING OF VESSELS OF SHIPPING BOARD

Four Hundred Steel Ships Involved—Many Are Too Small

Detroit, May 14.—Operation of a merchant fleet under direction of Henry Ford, was in prospect today with the announcement that the automobile manufacturer was considering the purchase of four hundred steel vessels from the United States shipping board.

First inkling of the manufacturer's plan came when T. V. O'Connor of Buffalo, chairman of the shipping board, announced after a two day conference with Ford that Ford might make such a buy.

The ships are dead loss where they lie at anchor now, requiring a huge annual outlay to prevent deterioration.

"Most of the shipping board vessels are pretty small for our purposes," said Ford, in discussing the report. "We might buy them if the price is right, but it is only those of around 12,000 tons that would be suitable for our use. The others would have to be scrapped."

"What we need is ships about the tonnage of the East Indian, which we bought from the shipping board to be reconditioned for export trade to Denmark. The East Indian runs around 12,000 tons."

Ford said that he would be careful to see that any boats he bought were built right.

"We know the Onondaga and the Onedia, in the South American trade, were all right for they were built near home," he said, "but a lot of the shipping board's vessels were thrown together, at a time when everyone was crazy. Some are not strong, and others have engines that are really pretty bad. They were built to meet an emergency need, and of course ours is not an emergency need."

The Onondaga and Onedia, were said to be too small for use by the Ford Company. The purchase would take about one third the vessels remaining in the shipping board fleet. The wood bottoms are already disposed of, O'Connor said.

WHO WINS POLICE COURT BATTLE?

President Of Xenia City Commission Wants To Know.

(While the controversy over the Police Judge question raged over the best dining tables in the city, it remained for Judge H. L. Smith, president of the city commission, to offer an entirely new angle on the situation. His letter below may or may not be a bombshell thrown into the police court situation.)

Editor, The Gazette: The trial now going on in this paper, to determine whether E. D. Smith was or was not Police Judge de facto, and if his official acts can be questioned or ignored is amusing.

These questions will have to be settled by the Courts. In the meantime, dust is being thrown in the eyes of some people. Let us suppose that the Courts find that the money paid can be recovered back from the City of Xenia. Still, Sister Leach and her companions will find that they have "spilled the beans," for themselves. If the trial before the Police Judge did not bind them, it did not bind the State. The State will simply start proceedings before a Justice of the Peace or the Probate Judge, and my guess is the fine will not be any less than before. In the end, the lawyer who made the recovery will be the only winner, for the money recovered back, and possibly more, will be needed for the new fines and costs.

JURY DISAGREES IN JONES CASE; TRIAL MAY BE HELD AGAIN

Men Vote For Acquittal Of "Procuree"—Women Wanted Conviction

Ellyria, O., May 14—Prosecutor D. A. Baird will probably decide today whether or not he will again bring before a jury for trial Miss Lucille Jones, 20, daughter of Rev. T. Howard Jones, Lorain clergyman.

The jury, deliberating upon the evidence introduced in an indictment charging her with having procured Ethel Kun, 15 year old girl, for William Monschein, reported late last night, they were hopelessly divided and were discharged by Judge A. R. Webber.

Miss Jones either may be brought to trial again on this indictment or upon another charging her with soliciting or attempting to solicit.

The jury, it was reported, stood seven for acquittal and five for conviction. The men, of whom there were nine on the jury, were said to have furnished the "not guilty" ballots and the three women and two men were reported to have voted "guilty."

Lorain, O., May 14.—Ethel Kun, just 15 years old but with experiences that usually come in maturer years, doesn't want to return to her studies in the eighth grade now that the trial of Lucille Jones, charged as a "procuree" has ended—tentatively at least.

The young girl who blasted her own reputation when she took the witness stand to accuse the Lorain minister's daughter of responsibility for her own indiscretions with men, declares that she cannot go back to school because "my teachers and the girls think I'm bad."

The hastens to add:

"The boys treat me all right, though."

Lucille Jones, who now faces the prospect of a new trial as a result of discharging of the jury when it disagreed yesterday, refused to discuss the case today.

Her father, Rev. T. Howard Jones, also refused to talk.

"There is nothing I can say," he said.

Berlin, May 14.—President Hindenburg today received congratulations of the diplomatic corps.

Then the old soldier shook hands with each of the envoys.

"We are animated by the wish that under your wise leadership the German nation will bring to flourish not only its material welfare but also treasures of a higher order which are the surest guarantee of civilization and the progress of human society."

"We hope under your guidance the German state will consolidate its relations with other nations for the triumph of the great cause of world peace."

"I ask Heavenly blessings on your German nation."

Replying to Pacelli, the president said:

"It is a particular pleasure to receive congratulations from your eloquent lips. Please be assured I fully appreciate your thoughts for development of all factors. Whoever stands at the head of a great nation should wish to see his people co-operate in peace and equality for the solution of world problems. I do not mistake the difficulties in my way but they are not insurmountable."

M'CLELLAN FORMING NEW VISITING STAFF FOR STATE HOSPITAL

Describes Resignation As Tempest In Teapot—Many Recant

Dayton, O., May 14—Dr. H. H. McClellan, superintendent of the Dayton State Hospital characterizes the wholesale resignation of members of the visiting medical staff and hints that "serious charges" would be preferred against him as a tempest in a teapot.

That a number of the physicians who tendered their resignations to Director of Public Welfare Harper at Columbus declaring hospital conditions were "intolerable" had thought better of their action and would serve on a new visiting staff became apparent yesterday.

Dr. McClellan announced that the new hospital visiting staff is in the process of formation and soon will be functioning smoothly.

"On the new staff will be a number of physicians who are alleged to have signed the 'round robin' to Director Harper," declared Dr. McClellan. "These gentlemen have been honest and sincere enough to say that they are sorry they were misled into signing the letter of protest in the terms in which it was couched."

"There will be enough new men to make up for any loss through the resignation. The complete staff will be announced as quickly as it is definitely formed."

"In so far as I am personally concerned I have nothing to say against any of the physicians who resigned. All are perfect gentlemen as far as I know."

"This closes the incident."

RULING OF CRABBE OF NO EFFECT HERE

The Greene County Auditor's office is not affected by a recent ruling of Attorney General C. C. Crabbe that county auditors may not remit liquor law fines and discharge persons convicted for state law violations and jailed for non-payment of fines, since the local office has always held this opinion, declared County Auditor R. O. Wead, Thursday.

Attorney General Crabbe had declared that this practice could not go on as one-half of the fine belongs to the state and therefore could not be remitted.

"The ruling refers to what is known as paupers," declared Auditor Wead, "and I have always made a practice of refusing applications to release prisoners in the past."

CHILD MUST BE QUICK OR DEAD SAYS CHICAGO CORONER

Is your child quick—or dead?

One or the other he must be, according to Coroner Oscar Wolff of Cook County, Illinois, where reckless autoists take the largest toll of child life in the United States.

And fathers and mothers, the responsibility rests with you, as well as with the automobile drivers, the coroner says in a warning issued in connection with National Safety Week.

Here is what he says you must do to protect your children:

1. Keep your boys and girls off the streets. That means you must not send them on errands across streets or permit them to play where automobiles travel.

2. Warn them daily of the danger of traffic.

3. Escort the youngest to school, thus personally teaching them the hazards of the streets.

"Of 19,000 persons killed by automobiles in the United States in

1924, 5,700 were children," said Coroner Wolff in his warning.

"The overwhelming majority of these youngsters were killed while engaged in running errands or going to and from school. In Cook County's huge toll for six months, only three children were killed while playing in the streets."

"If this slaughter is not stopped, mothers soon will have to send their children to the grocery in taxicabs in order to insure their safe return."

AUTOIST REPORTS MACHINE STONED

Howard Fox, Trumbull Street, lodged a complaint with police Thursday that his automobile was stoned Wednesday evening while driving on the Fairground Road with a woman companion. Neither of the occupants was struck by the missiles though one smashed through the rear window and another passed through the side window glass.

Two men in another car passed him and threw the rocks, said Fox, who gave police the number of the other machine, Elwood Strayer, this city, arrested later as the owner of the car, denied knowledge of the stoning and released.

Fox told police that two men in a machine drove by his car, stopped and when Fox passed them, began a stone attack. Fox could not explain the cause of the attack.

BEATING THE TRAIN

TWO dead, two injured," is the glaring streamer heading across the top of some newspaper somewhere almost every day; or something similar. And then the story goes on to relate the horrible details of the accident in which a fast-flying train crashed into a speeding motorcar and of how one of the injured members of the party said afterwards:—"I begged him to stop—I shouted in his ear—but he said he could beat the train."

He lost, and with his own death was recorded the snuffing out of the life of the young woman who rode by his side and the injury of his other two companions. Two dead and two injured. And all because of a foolish whim—nothing higher—to beat a train over the crossing. The story oftentimes goes on to relate that as the speeding automobile approached the crossing there was another car there whose driver showed the right way. The driver of the latter car had stopped to look and listen before starting across and had heard the whistle of the locomotive. As the other car approached he had held out his hand and, as that was ignored, yelled to the driver to stop. One of the occupants of the back seat in the speeding car had even given warning. The driver knew just what he was doing—trying to beat the train. He couldn't wait.

But let the driver of the locomotive tell the rest of the story. "There was no chance for the train to stop or slow down. I saw an automobile waiting at the crossing for the train to pass. The whistle was blowing and I heard the crossing bell. Suddenly an auto shot out from the right side of the other car. I put on the emergency brakes but the engine hit the car squarely. As soon as the train stopped I got out and ran back. The baggage man reached the scene ahead of me. The car was a wreck and on fire. We got the occupants out as quickly as we could but a girl and a young man were dead. The others seemed to be alive and we rushed them to a hospital in the automobile that had stopped for the train. They were badly burned and injured, the young man with both legs broken."

The thoughtless will, of course, ignore this warning as the many others that have gone before, but it will stir the minds of others and we hope will save lives. The driver who waited at the crossing, who did not attempt to race the train across the danger point, is the example of the man who "Lost a minute and saved a life"—his own. The other is the example of the man who disregarded the slogan which has been used throughout the nation—"Wait—you may lose"—and he is dead.

OTHER PEOPLE'S TROUBLES

Seems like she's never had a day which she could give to rest and play.

In all the years we've shared this life

And plodded on as man and wife I've never known the day to be when she was wholly worry-free.

We've had our share of hurt and woe Which every married pair must know.

And that we've borne as best we could

Believing all God sends is good, But when our patch of sky is fair I've said a glad farewell to care.

Not so with Nell. Her heart's so large That every living soul's her charge.

And other people's troubles make A burden which she cannot shake;

Day after day she hears them call And does the worrying for them all.

I've scolded, just for this reply: "We are so happy, you and I."

That we should be ashamed to live And never help or never give;

I couldn't sleep at night and know I had been called and didn't go."

And so I smile, for I have learned From her that laughter must be earned.

That other people's troubles call For help and pity from us all.

That none who truly loves can be At peace with self and worry free.

Begin by chaining 71 with the white Saxony. Work 70 S. C. on the chain. Work seven inches of S. C., always taking up both loops of previous row. Chain one and turn at end of each row. Today's Talks

BEAUTY

I never tire of talking beauty with anyone—any phase of it.

One reason why I so much love the writings of Lafcadio Hearn and W. H. Hudson is that they both strove for the expression of beauty. Neither man cared for money or fame. Both, however, sought for recognition, and both died just as it began to come their way.

A home cannot be made too beautiful. Neither can an office. Neither can a city—nor anything. I do not consider it a vain thing for women to dress beautifully. The more beauty there is in this world, the more happiness there will be.

Beauty always gives forth charm.

How true this is of nature. What gorgeous colorings to the coats of the birds and the blossoms of the flowers. Every day when I leave my office for luncheon I pass a florist's shop, and I am attracted to its windows as to a magnet because of its wondrous beauty. I used to think it wasteful to spend several dollars for an orchid. I do not think so now—if you have to spend the several dollars that you can afford to spend that way.

Nothing is wasted that sweeps the heart clean with beauty.

I have a friend who once told me that his religion was the religion of beauty. I told him promptly that his religion was mine.

We think about the things we love. And if we love beauty in all its forms and manifestations, we are bound to think beautiful thoughts and live beautiful lives, no matter how much we have to contend with.

And there is beauty enough for all! Everywhere.

Miserable with headaches, dizzy spells and bladder irregularities? All are signs of kidney sickness!

Use Doan's Pills—a stimulant diuretic to the kidneys.

Here's Xenia testimony:

Mrs. Hannah A. Reed, 520 W. Second St., says: "My back was weak and at times when I stooped I got sharp pains through it and I could hardly rise again. Mornings I was lame and tired, and my back throbbed. My kidneys acted irregularly and caused annoyance. Doan's Pills relieved me of those pains in my back and my kidneys became normal."

RE-APPRAISAL OF PROPERTY STARTS NOW IN FAIRFIELD

Re-appraisal of property in Fairfield Village was begun Wednesday following a conference with members of the village Council by County Auditor R. O. Wead Tuesday night.

R. O. Rutzong, Fairfield, land owner and real estate man has been appointed by Auditor Wead as head appraiser and deputy under the auditor.

There are 402 tracts of land in Fairfield to be appraised and it is estimated by Auditor Wead that forty days will be consumed in the work. An appropriation of \$900 to cover re-appraisal expenses was recently authorized by the County Commissioners.

Auditor Wead also announced the appointment of an advisory board consisting of five residents of Fairfield, all experienced real estate men, which will confer with Mr. Rutzong after the appraisal has been made on various incongruities in proportions and values placed on property.

The advisory board includes R. C. Rockfield, J. W. Smith, L. H. Douglas, S. H. Nelson and Charles Mays. It is estimated that it will take three or four days for members of the board to go over values.

The various values will then be given to the county board of revision which consists of Herman Eady, president of the board of county commissioners, F. A. Jackson, county treasurer and Auditor Wead which will make a final survey of the values; hear any complaints on the appraisal and act on them.

RED CROSS CHAPTER NAMES COMMITTEE ON PREPAREDNESS

A Disaster Preparedness Committee which will be ready to function in the case of any unforeseen disaster in this vicinity, is being organized by the Greene County Chapter of the American Red Cross, according to Mrs. Sarah H. Roberson, executive secretary.

The committee will enable the Red Cross to take care of sufferers, in the case a tornado, flood, fire or any similar disaster swept the city or any like situation that might arise. Merchants will be placed on the committee, with their consent to furnish material to the Red Cross for sufferers in case the situation might occur. Individuals from over the entire county will be made members of the committee each person to fill some need of the Red Cross for such a purpose.

The committee will be inactive in connection with Red Cross work except in the case of a disaster. "It is important that we be prepared for disaster for we cannot tell when a terrible situation might come up," said Mrs. Roberson.

The suggestion that a Disaster Preparedness Committee be appointed, made at the last meeting of the executive board of the Greene County Red Cross, met with the approval of the board members and work was begun immediately on its formation.

SAMUEL DODDS IS CALLED BY DEATH

Word was received by relatives here of the death of Samuel Dodds, former Xenian, veteran railroad employee, which occurred at his home, 1603 Woodward Avenue, Springfield, Thursday morning. The cause of death was not learned but it was thought that it was due to heart trouble. He had been ill since Tuesday.

Mr. Dodds was born in Xenia and spent a number of years here. He was ticket agent at the Springfield and Yellow Springs Pennsylvania rail road offices, for a number of years, but has been retired from service three years.

Surviving are his widow and one sister, Mrs. Thomas Spenser, 502 W. Main Street, this city. The late John A. Dodds of Xenia, was a brother of the deceased.

Funeral arrangements have not been completed and will be announced later. Burial will probably be made in Xenia.

HILLSBORO WOMEN HURT IN ACCIDENT

Miss Elizabeth Miller, Miss Nannie Bowles and Mrs. Dragoo, all of Hillsboro, O., were severely bruised and cut, when the machine in which they were riding overturned on the Dayton-Xenia pike, near Alpha, Thursday morning.

The women were enroute to the meeting of the League of Women Voters in Dayton, when the steering gear on the machine became locked and caused the car to leave the road. Miss Miller was the more painfully hurt, receiving several deep cuts on her arm and leg. The other women were bruised and suffered from shock.

THREE ARE TAKEN TO REFORMATORY

Ralph Cline, 19, Davey, W. Va., convicted of charges of forgery and grand larceny, Herschel White and Forest Sibole, both of Springfield, convicted on four counts of burglary and larceny, were taken to the Ohio State Reformatory at Mansfield, O., Thursday morning by Sheriff Morris Sharp where they will begin serving sentences.

The removal of White and Sibole to Mansfield writes the final chapter in the series of burglaries and robberies in the county which started Cedarville, Bowersville and Jamestown and which baffled local authorities for several weeks.

Cline was taken to Mansfield for violation of parole.

ATTORNEY MOVES TO QUASH INDICTMENT

Motion to quash the indictment by the Grand Jury against Lewis Swan, this city, charged with unlawful possession of narcotics, was filed in Common Pleas Court Wednesday.

It is charged in the motion that the state failed to show in what way Swan was not permitted to have a small quantity of morphine alleged to have been found on him several weeks ago and not setting forth for what purpose he used it.

Swan pleaded not guilty to the charge at his arraignment and was indicted by the Grand Jury for the May term. He has not yet been arraigned on the indictment in Common Pleas Court. The motion was filed by his attorney, H. C. Armstrong.

ATTEMPT BURGLARY AT MELLAGE SHOP

Joseph Mellage, owner of a shoe repair shop, 504 Detroit Street, reported to police Thursday that an attempt had been made to enter his place of business Wednesday night.

Burglars forced a window on an empty apartment adjoining the shop, and attempted to force a door leading into the shop. A hook on the inside of the door, prevented entry. The shop was burglarized once before.

PITTSBURGH FANS SOUR R ON PIRATES OVER WINTER DEAL TH AT PANNED OUT WRONG

BY DAVIS J. WALSH

Pittsburgh, May 14—Pittsburgh fans, ever a mercurial lot, have turned their backs on the Pirates because of the club's inept performances and today are calling loudly for somebody's head, preferably that of Barney Dreyfus. That worthy rather than Bill McKechnie, has been blamed for the mid-winter deal, whereby the Pirates gave up 50 per cent of an all-star infield and received in return one hundred per cent of jolly old Barnum.

The transaction took away "Rabbit" Maranville, the best second baseman in the league, last year; Charley Grimm, a gifted first baseman and Wilbur Cooper, until recently one of baseball's leading left handers. It brought here Al Niehaus, a minor leaguer, who apparently can neither hit nor field; Grantham, another infielder, who got away to a standing start and Aldridge, a right hand pitcher who held out so long that he has been of no use to the club to date.

The thing has begun to look as sour as last week's milk and before the team ventured into the east, local fans were staying away from Forbes field in droves. The writer took the trouble to inquire into the local situation today and found apathy rampant, a ten dollar word meaning without restraint.

The populace, it seems, does not mean to rise to another Pirate failure. It saw the Pirates of 1921, all of seven and one half games in the lead in September, yet fail to win the pennant. It saw the 1922, 1923 and 1924 clubs apparently headed for the flag, only to bog down at the critical moment.

Now it finds itself in the position of the man who investigated the cigar chopper with the tip of an inquisitive finger. It is beginning to lose confidence in the situation. Instead of being a contender from the drop of the derby, as indicated by advance calculations, the Pirates first were knocked off by everybody in the west and then went east to Philadelphia where they fared none too well, if at all.

This record has been taken locally as sufficient proof that the club has lost its collective shirt in the much-discussed club deal. In fact, the only man who seems to think otherwise is Barney Dreyfus. He stoutly maintains that time will justify all and, meantime, the club has gone into reverse with great alacrity.

Grantham came here with a reputation of being an indifferent fielder but a good hitter and base runner. In the last named department he has been a disappointment because no one has yet invented a system of successful base running in the dugout. Grantham hasn't hit the size of his

neckband and has been out of the lineup for the most part. But with Niehaus going so poorly, something has to be done; so the chances are good that Grantham will be in there from day to day, regardless of his light hitting.

Meanwhile Pittsburgh fans are thinking very rugged thoughts about Maranville and Grimes.

COURTESY HELPS ADS PAY DIVIDENDS

The flavor of courtesy in an advertisement has the pulling power of a strong magnet.

Most people like to be courteously addressed—even though many of them are not particularly courteous themselves. It is simply human nature to respond to kindly treatment favorably. Advertisers who keep this in mind and write courtesy and kindness into their ads find prospects ready to read the printed message which is courteous than one which is impersonal—or even brusque.

The flavor of courtesy is particularly valuable in food, clothing or bank advertising. One chain of cafeterias in a large mid-western city has profited hugely by using the simple phrase, "Miss Blank invites you," in tempting people into that particular chain of cafeterias.

GETTING UP NIGHTS

Tells you there is danger ahead. A healthy bladder does not act at night. J. H. Dorton, W. Graham, Va. says: "I had to get up seven or eight times at night for forty years. I thought it was my age. After taking Lithiated Buchu a short time, I am alright." Lithiated Buchu cleanses the bladder as Epsom Salts do the bowels thereby relieving irritation driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost 2 cents each. Finer Results, Easier Riding, Greater Strength, Lower Costs

One of the first considerations of the designers and builders of the new good Maxwell was to make sure of ample strength.

Transmission and rear axle are strong enough for the most powerful lugging through deep sand and mud. In every particular the car is built to do the job—whatever the job may be—and do it unfalteringly.

The new good Maxwell is in truth a car of exceptional quality. The motor is designed not only to deliver 58 miles an hour and accelerate from 5 to 25 in 8 seconds. It also combines such structural features as force feed lubrication to main bearings.

Facts like these account for the car's dependable service and low maintenance costs. We would like an opportunity to tell you the complete Maxwell story. But most of all we are eager to demonstrate the car's finer results and riding qualities.

BY MACK SAUER

HIS ONION QUEEN

Longfellow Smallpox wore a paper collar shined to its most exuberant state of brilliancy and was most lovely in blue denim overalls. His tie was of intricate design, being fastened to the collar button with a clever wire arrangement.

But you should have seen the room. How lovely it was! A flickering coal oil lamp sputtered in profuse splendor and cast a mellow refluence upon the homely faces of those present. The lamp stood in the center of a card table heaped with rag weeds and morning glories, interspersed with large vases filled with oyster soup and gasoline. The alarm clock was buried in a rich, deep brown dust and ticked away the swiftly passing moments of the night.

Music was provided by Matt Kump and his Hammer Club orchestra, all selections being colorful, the tints of the players' cheeks ranging from a pale grey to a bloody red and changing in size from like a flat piece of rubber to like a 30x3 inner tube blown to its most astounding capacity with free air.

One does not attain such a prolific attainment in a day. In fact, the distinguished Mr. Kump acquired the first rudiments of trombone manipulation while blowing rubber balloons full of air at county fairs. The graceful, sliding movements of his arm were developed to a high crest of efficiency even before he took up the pathetic trombone.

At a late hour refreshments of mush and milk were served, the milk being that of a bewitching little Jersey cow that has been quartered on the verdant hills of Jamestown during the splendid spring months.

Many useful gifts were received, including a bar of soap.

GOING UP

Blessings on thee, Little Ann,
Go barefoot while you can;
Big girls know no joys like these,
They can only show their knees.

Abigail will sing "His Onion Queen" in Xenia one of these days. Turn now to the ads.

FISHING IS FINE

There was a young fellow named Tharp
Whose hook hooked a 20-pound carp;
It pulled like a shoat,
Thorp fell from the boat--
I think he's now playing a harp.

FINE OPERATORS OF CARNIVAL BOOTHS ON GAMBLING CHARGE

Operators of booths containing games of chance in carnivals were hit by a knockout blow by Prosecuting Attorney J. Carl Marshall Wednesday night when two men and two women, with the John Macey carnival showing at Cedarville were placed under arrest and given fines, on charges of operating gambling devices.

Those arrested and fined by Mayor H. G. Funsett, of Cedarville late Wednesday night were Mrs. Ray D. Jones, Mrs. T. E. Edgum, H. D. Singleton and Harry Markel.

All entered pleas of guilty when arraigned before Mayor Funsett and were each fined \$25 and costs.

They were arrested by Deputy Sheriff John Baughn, assisted by County Detective F. E. Gary and Harvey Myers, marshal of Cedarville at orders from Prosecutor Marshall who ordered an immediate investigation when gambling at the carnival was reported to him.

The prosecutor declared it was his intention to be strictly impartial in making arrests for gambling in violation of the state law when information reached him and added that operators of gambling devices at carnivals would not be given immunity.

Mayor Funsett declared Thursday that the carnival was granted a license day by day and has been showing in Cedarville since Monday but intimated that activities of the show would be halted Thursday.

Alleged gambling was called to the attention of Cedarville authorities when an operator of a booth refused to give a patron a blanket which he is said to have won by a gambling device. The name of the operator was withheld but it was announced he was among the four arrested.

The four operators were arrested and fined under a Cedarville ordinance which prohibits gambling.

This remarkable oil has at last been put up in easy-to-take, tasteless capsules, under the name of Red Mill Harison. Oil. It costs only 50c, and relief is guaranteed or money back. COURTESY
HELPS ADS
PAY DIVIDENDS

The flavor of courtesy in an advertisement has the pulling power of a strong magnet.

Most people like to be courteously addressed—even though many of them are not particularly courteous themselves. It is simply human nature to respond to kindly treatment favorably. Advertisers who keep this in mind and write courtesy and kindness into their ads find prospects ready to read the printed message which is courteous than one which is impersonal—or even brusque.

The flavor-of-courtesy is particularly valuable in food, clothing or bank advertising. One chain of cafeterias in a large mid-western city has profited hugely by using the simple phrase, "Miss Blank invites you." It is tempting people into that particular chain of cafeterias.

GETTING UP NIGHTS

Tells you there is danger ahead. A healthy bladder does not act at night. J. L. Horton, W. Graham, Va., says "I had to get up seven or eight times at night for forty years. I thought it was my age. After taking Lithiated Buchu a short time, I am alright." Lithiated Buchu cleanses the bladder as Epsom Salts do the bowels thereby relieving irritation driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost 2 cents each. Sold at all leading drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at Sayre and Hemphill. Adv.

Finer Results, Easier Riding, Greater Strength, Lower Costs

One of the first considerations of the designers and builders of the new good Maxwell was to make sure of ample strength.

Transmission and rear axle are strong enough for the most powerful lugging through deep sand and mud. In every particular the car is built to do the job—whatever the job may be—and do it unfalteringly.

The new good Maxwell is in truth a car of exceptional quality. The motor is designed not only to deliver 58 miles an hour and accelerate from 5 to 25 in 8 seconds. It also combines such structural features as force feed lubrication to main bearings.

Facts like these account for the car's dependable service and low maintenance costs. We would like an opportunity to tell you the complete Maxwell story. But most of all we are eager to demonstrate the car's finer results and riding qualities.

BRINGING UP FATHER

MICHAEL'S MARRIAGE

By MICHAEL

CHAPTER XLII

Michael Menlow did not enjoy the engagement dinner. The principal reason was that his dresscoat rubbed a sore spot on his neck, causing him to be continually moving his head in hopes of finding relief. Lilah interpreted it as nervousness. She smiled at him sympathetically and wished that she could pat his cheeks and run her fingers through his hair. Radiant in a gown of bronze satin and tulle of a deeper shade, that gave an air of subdued smartness, she sat looking as if she was the only woman who had ever won the heart of a man.

Michael was, for the most part, silent. He was thinking of his mother, of the plans he had once made to go around the world on his own; and though he fought them, he was taken up by thoughts of Elaine Alloway.

At last came the moment when Father Pharely arose nervously, his wine glass shaking a little, and stilled the small talk. Father Pharely was quite self-conscious; he was not accustomed to speaking to more than two or three persons at a time. He did not look at his daughter, but focused his attention upon Michael.

"I wish you to drink to the happiness of my daughter and Mr. Michael Menlow," he said evenly.

Sixteen pairs of eyes turned sparkling to Lilah and Michael. The girls gave little "ahs," and the men grinned. Lornie Capper sighed. Lilah blushed. Michael stared at the tablecloth. Father Pharely looked to his wife for approval of his phrasing. He had spent the afternoon memorizing what he was going to say but wasn't sure that he had recited it correctly.

A chattering buzz began as the glasses clinked again upon the table. Everyone was smiling.

There were many expressions such as "Why, Lilah!" from pretty girlish mouths.

When they all arose from the table, Lornie came around to Michael with a funeral expression and solemnly shook his friend's hand. Michael regarded him questioning, not knowing whether Lornie was being praiseworthy.

"I want you to be the best man, of course," he said.

Lornie looked alarmed. "Gee gosh; I don't want to, but I guess you'll need me. You'll need an old gray head like mine to bear you through your trouble."

Michael smiled, but Lornie's sad expression did not change.

The tables magically disappeared, and an orchestra took up its place on the balcony.

Michael sought out Lilah.

"I claim the first one by divine right," he smiled.

He did not experience any exultation as he held her in his arms. He felt rather dazed, and would have liked to go home and go to sleep.

Lornie claimed Lilah after the first dance.

"You don't own her yet," he smiled as she took his arm. Michael frowned. He didn't think the remark was in good taste.

He took Katherine as a partner. There were other girls he would have preferred to dance with, but he felt a hesitancy to ask them—now.

Michael was glad when he was free to go home. Without taking off his hat or topcoat, he slumped down into a chair, and gazed into the smouldering embers of the fireplace.

He was startled when Sally appeared with a tray, bearing a glass of hot milk, and a letter. He regarded it idly as he sipped the drink. It was from Elaine Alloway.

No Increase in the Price of Firestone FULL-SIZE GUM-DIPPED BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer mileage—greater economy—at no extra cost to you!

Enjoy the safety, economy and comfort of Balloon Gum-Dipped Cords this summer. Let us equip your car now at low cost—with liberal allowance for your old tires.
